WORK EXPERIENCE

Software Developer Intern
Speqto Technology / 2023

During my 4-month internship in Noida, I built a cryptocurrency exchange backend from scratch. Additionally, I contributed to various other projects, enhancing my software development skills and experience.

React Js Mentor
iMeet Technology / 2023

Led React.js mentorship program, teaching students key concepts in React, Next.js, Firebase, and Tailwind CSS. Developed and delivered comprehensive lesson plans, facilitated hands-on coding sessions, and provided one-on-one support to enhance students' skills and knowledge in modern web development.
